KEY FEATURES

- The Universal Light Bar Kit is designed for cost effective and energy efficient LED linear retrofit applications. It can be used to seamlessly retrofit most existing fluorescent T8, T12 and T5 lamp fixtures without the need to reuse the existing sockets or lamp ballasts.
- The Universal Light Bar Kit is lightweight and built for durability, featuring a plastic housing and a frosted polycarbonate lens.
- The magnetic backing aids in securing and aligning light bars on existing housing. Self-tapping Tek screws secure drivers and bars to surface. Quick connectors and included wiring harnesses enable fast and seamless installation.
- High quality LED and energy efficient driver provides supreme service life. ULB is rated to deliver L70 performance >100,000hrs. Performance levels exceed 160 LPW.
- Rated for ambient temperature between -4°F to 122°F (-20°C to 50°C). Suitable for enclosed and damp applications.
- Standard 5-year warranty/ Optional 10 year available.

RELIABLE AND MAINTENANCE FREE

Operating directly on 120-277V line voltage without need of additional ballast, these light bar retrofit kits eliminate the trouble of pre-inspection in the field, avoid un-expected ballast compatibility issues, and maintenance-free.

The durable plastic housing paired with a polycarbonate frosted lens ensures a lightweight yet robust design, while high ambient temperature ratings from -4°F to 122°F (-20°C to 50°C) make them perfect for a wide range of environments. All models are IC-rated and engineered for an impressive L70 calculated lifetime of 100,000 hours. Backed by a 5-year standard warranty, with an optional 10-year extended warranty, these light bars provide long-lasting value you can trust.

IC RATED

100,000 hrs

LUMEN SELECTABLE

The ULB is compatible with standard 0-10V dimmers, allowing you to effortlessly customize your lighting environment, perfect for schools, offices, industrial, retail, or any space requiring versatile lighting solutions.

QUICK AND EASY INSTALLATION

The magnetic LED light bar kits allow for quick and secure mounting. They fit seamlessly between pre-existing sockets, eliminating the need to remove and dispose of them, minimizing the cost of labor.

The magnets on the back of the light bars and driver allow for easy alignment, while the self-tapping tek screws help to securely install the kit. This kit was engineered for efficient installation, providing labor time and money savings.
