Volumetric Selectable Troffer

FEATURES

The VST-Controls Ready Volumetric Selectable Troffer combines premium performance with cost-effective versatility. Featuring both field-selectable and factory-set lumen output and correlated color temperature (CCT), it delivers exceptional flexibility for a wide range of applications.

Designed for enhanced functionality, it can be paired with NUROAir to enable advanced grouping capabilities and maximize energy savings. Its shallow profile, along with a variety of size and mounting configurations, makes it ideal for diverse installation requirements.

With its sleek design and fully selectable features, the VST-Controls Ready Troffer provides an efficient, adaptable, and modern lighting solution—making it a leading choice for troffer applications

Illuminate your space with the VST-Controls Ready, a highly versatile Volumetric Selectable Troffer that offers a perfect blend of form and function. With its shallow lightweight design, it reduces both packaging requirements and its carbon footprint. Its highly versatile nature makes it suitable for a myriad of applications, ensuring adaptability to diverse environments.

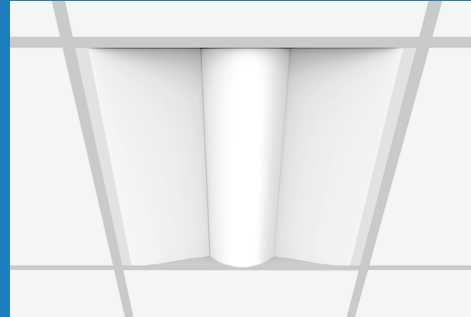

SUITABLE APPLICATIONS

- Education
- Healthcare
- Commercial Office
- Storage Facility
- Retail
- Grocery Store

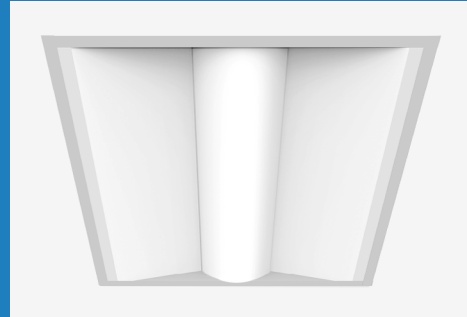

MOUNTING OPTIONS

VST-Controls Ready offers a range of mounting options to accommodate various installation preferences and requirements. The three primary mounting options available are grid recessed, flange kit mount, and surface mount. Each option caters to different installation scenarios, providing flexibility and versatility.

SIZING OPTIONS

Tailor your lighting to perfection with VST's versatile sizing options. Choose the sleek and compact 1'x4' for a focused, space-conscious illumination. Opt for the balanced proportions of the 2'x2', striking the ideal harmony between form and function. Need broader coverage? Embrace the expansive 2'x4', providing ample light for larger spaces. VST-Controls Ready ensures that whether you're working with a confined area or an expansive room, there's a size that perfectly suits your lighting needs.
